WELCOME AND INTRODUCTION DONE BY Patrick Wright

AGENDA DISCUSSION

- **Woonerf**

- Reactions to the NRPA poll (Whatsapp and Facebook) asking if people supported a request for a woonerf were generally positive (80% supported)
- As a consequence NRPA will move ahead with preparations for an application
- There was a lot of discussion on the Community Info whatsapp group, as well as some negative reactions. Possible ways to alleviate these concerns:
 - Hold an info evening for all concerned to answer any questions
 - Possibly only post “hot topics” to the Noordhoek Chat WhatsApp Group instead of the Noordhoek Info WhatsApp group so as to avoid too many discussions and comments on the Noordhoek Info WhatsApp Group
- Patrick will be meeting with Dirk du Preez – Head of Non-Motorised Transport in Cape Town – to see how he is able to assist the NRPA

- **Beach toilets update**

- Plans have finally been submitted
- NRPA needs to find a contractor to do the work of building the toilets
- Sewerage system to cost around R150k leaving R350k for building costs

- **Cape Point Vineyards Events**

- Nico to facilitate meeting between event organisers and concerned residents to ensure issues and concerns are heard

- **Traffic**

- The City of Cape Town’s speed measuring and counting cameras to be installed along Silvermine Road and the bottom of Chapman’s Peak before the end of September 2025

Portfolio updates (additional to portfolio reports)

- **General**

- Awaiting a meeting with the Mayco Member responsible for the sports fields to discuss future plans
- Noordhoek Tourism – plans to turn this into a Noordhoek Business Forum are under way. The team are contacting all businesses within the valley to see if they are keen to get involved.

- **Civic**

- PW provided a brief update on the portfolio report

- **Planning**

- RB provided a brief update on the current planning activities

- **Treasurer**

- AB shared a brief update of the financial figures

- R653k in the bank account (with R500k for the toilets)
- **Common**
 - The common committee are working with NEAG around the trees on the common and what is needed
- **Sportsfields**
 - See General
